## PERFORMANCE CF 128

Length \_722 mm  
Width \_433 mm  
Height \_370 mm  
Weight \_265 kg

## PERFORMANCE CF 180

Length \_987 mm  
Width \_626 mm  
Height \_510 mm  
Weight \_725 kg

[www.nlj8.com](http://www.nlj8.com)

## PERFORMANCE CF 246

Length \_1519 mm  
Width \_791 mm  
Height \_830 mm  
Weight \_1600 kg

### Components

You can choose from a wide selection of components, all of which have been specifically designed for our airends in order to optimize efficiency and reliability when operating in your compressor package. These components are proven designs and can be supplied in airend kits to help reduce your costs and your logistics. Inlet valves, minimum pressure valves, thermostats and combination blocks are all available for you to select with our airends.

### Lubricant

Your compressor system will last longer and be more reliable when using our high quality mineral and synthetic lubricants. These lubricants have been engineered with excellent start up and operating lubrication characteristics. Not only will you have long life, excellent cooling performance and improved compressor efficiency but you will also benefit from extended warranty when using our lubricants.

### Controls

If you require electronic controls for your compressor package then we can help. We have developed two types of electronic multifunctional in accordance with EC standards which can meet a wide variety of your requirements.

### Aftermarket Service

We maintain stock of original spare parts and exchange airends in order to meet your demand. We also have a comprehensive range of rebuild kits and a factory rebuild service for our entire product portfolio, along with a dedicated team of specialists to help you with any special requirements you may have.

### Engineering Services

Our engineering services can help bring you peace of mind and help you to develop and improve your packages. Our experienced and very capable engineering office supports all our customers by working with your teams to find solutions for each airend and component application.

Many years of experience helps us to help you achieve the optimum compressed air solution.

You can be certain, whatever your application, we will have the experience, the right product and the right system solution for you in order for you to save costs without loss of quality or reliability.
